5-Day Intensive Course | **Pretoria or Live Online** | **Certificate of Completion** | **Practical audit & KPI exercises**

A practical 5-day course for facilities, maintenance and operations professionals – plan, budget and maintain your facilities, decide what to outsource, manage contractors and prove performance with KPIs.

training@za-icl.com · +27 11 057 6895 · facilitiesmanagementtraining.co.za

COURSE OVERVIEW

Get the best out of your facilities – within budget, safely and for their whole lifetime.

This course develops delegates' skills in managing facility staff and corporate assets while minimising risk exposure in the workplace. As the facilities management function continues to evolve, it offers the latest thinking in the profession and the right balance between asset performance – functionality, availability, reliability and safety – and cost.

It tackles the issues facilities teams meet on the ground and applies best practice to real solutions, covering planning and budgeting, risk-based maintenance, outsourcing and contracting, and performance monitoring and benchmarking.

LEARNING OUTCOMES

By the end of the course you will be able to:

- ✔ Understand the basics and the full process of facilities management
- ✔ Draw up a preventive maintenance concept based on risk
- ✔ Develop strategies to decide when and what to outsource
- ✔ Understand the different contract types and service level agreements
- ✔ Identify and monitor facilities management process performance with KPIs
- ✔ Use the Facilities Management Balanced Scorecard, audits and benchmarking

WHO SHOULD ATTEND

- ✔ **Facilities managers:** Facilities, building and property managers responsible for sites and services.
- ✔ **Maintenance & engineering:** Maintenance managers, planners, engineers and technical supervisors.
- ✔ **Operations & utilities:** Professionals running production facilities, utilities, power and water networks.
- ✔ **Contracts & support services:** Staff who manage FM contractors, SLAs, cleaning, security and landscaping.

HOW IT IS TAUGHT

The course uses a variety of proven adult learning techniques to ensure maximum understanding, comprehension and retention: presentation slides, exercises and group discussion.

YOUR FACILITATOR

GO

Gert Oberholster

Productivity trainer & consultant · Production, maintenance & quality management

Gert Oberholster has many years of experience in production, projects, logistics, maintenance and quality management, gained with a range of organisations. He now runs his own business specialising in productivity training and consultation.

DAILY AGENDA

Programme agenda

DAY 1

An Overview of Facilities Management

The facilities management process as a whole, and where your own organisation stands today.

- The facilities management process in general
- Facilities management as a business within a business
- Facilities phases, planning and realisation
- The relationship between facilities management and asset management
- Facilities roles and the current state of your FM processes

DAY 2

The Basic Elements of Facilities Management

The planning, budgeting and control that keep facilities running and affordable.

- Types of planning
- Strategic and annual planning, life-cycle cost principles
- Budgeting principles
- Disaster recovery plans
- Maintenance concepts
- Work planning and control, and performance management of the workflow

DAY 3

Preventive Maintenance & Maintenance Strategy

Use risk to decide what to maintain, how and how often.

- Understanding risk
- Risk-based maintenance: the methodology
- Steps in developing an effective, risk-based maintenance strategy
- Typical inspection and maintenance tasks for utilities

DAILY AGENDA (CONTINUED)

Programme agenda

DAY 4

Outsourcing & Contracting

Decide what to outsource, choose the right contractor and manage the contract.

- What to outsource and what not
- Choosing the right contractor
- How to manage outsourced services
- Contract types
- The contracting cycle
- Service level agreements

DAY 5

Performance Monitoring & Benchmarking

Set targets, measure performance and keep improving.

- Continuous improvement
- Target setting as a starting point
- Monitoring performance: developing and using key performance indicators
- The Facilities Management Balanced Scorecard (FMBSC)
- Assessments, audits and benchmarking
- Course review and wrap-up

Practical activity: Practical exercise in auditing

CERTIFICATION

ICL Certificate of Completion

Delegates who attend the full programme receive the Institute of Corporate Learning Certificate of Completion on the final day.
